

7" USB Portable Slider Display

UM-760/UM-760R/UM-760C Series

UM-760C

Super slim foldable USB-driven LCD monitors are an affordable way to add a portable display to any computer.

7" USB Portable Slider Display

Now in its 3rd Generation, the Mimo 3G is still the coolest form factor ever... 7" monitor in a compact, foldable footprint. The Mimo UM-760 family is ultra-portable, weighs less than a pound and measures less than an inch thick when folded. Available in non-touch (UM-760), resistive touch (UM-760R) and capacitive touch (UM-760C) these are the designed solutions for many applications. The integrated stand protects the screen from scratches when closed; when opened, the screen can display in either landscape or portrait orientations. The UM-760 monitor series is designed to provide the most cost effective solutions for consumer, retail POS, and hospitality markets.

Features:

- Pixel pitch: 0.15 (H) x 0.15 (V)
- Available in Capacitive, Resistive and Non-Touch
- Utilizes Displaylink for power, touch and video over single USB connection

Applications:

- POP/POS
- Secondary screen for productivity
- Gaming and entertainment
- Light industrial shop-floor automation
- Digital Signage
- Video Conferencing

Mac OS X Touchscreen Driver (\$35)

A special driver is required for using the Mimo 760R with a Macintosh computer (Intel-based only) to support touchscreen functions.
