

Vehicle Mount Kit - Short Snap Plate

This vehicle mount enables you to easily mount your xTablet (excluding 1st generation Flex 10A) iPad cases, or Surface cases in a professional-grade assembly that allows for ergonomic access to the tablet in a vehicle. The mount features a quick release mechanism for fast transition from vehicle to field operations.

Included with this standard mount bundle is the Snap Mount itself, a no-drill base that attaches to the passenger seat floor bolt and everything else needed to build the mount for your device.

Some assembly is required. Tablets sold seperately.
